FLORISTRY / UK & DESTINATION WEDDINGS

# Flowers that own the room.

Bouquets. Ceremony flowers. Tables. Full-scale floral takeovers.

NAMED HITCHED'S MOST POPULAR UK WEDDING FLORIST 2025

# Pretty is easy. Personality takes talent.

We design flowers that feel like your wedding: the right colour, the right scale and enough character to make the room sit up properly.

*Creative.*

*Confident.*

*Completely yours.*

SIMPLE PRICING. SERIOUS FLOWERS.

# We price the element. Not the petal.

Choose the finished element and its scale — bouquet, meadow, arch, centrepiece, garland or installation — and that's what we price.

We use the best seasonal stems to deliver the agreed palette, shape and impact. No punishment because one flower became fashionable. No new number after someone says "wedding".

*Not on the list? Ask.*

We are florists. Making something new is rather the point.

## BOUQUETS

# Carry something worth looking at.

Classic. Wild. Sculptural. Colour-soaked. Soft and romantic. Your bouquet should look like you — only flowerier.

*Your flowers. Your rules.*

## BRIDAL FLOWERS

# Medium is the classic. Large makes the entrance.

The medium hand-tied is the classic bouquet size and suits most brides. The large version balances beautifully for a taller bride — or anyone who wants more “oh wow” than usual.

## *And a posy?*

Small, tight and domed. Often one flower type. Deliberately compact and very good at its job.

|                                 |      |
|---------------------------------|------|

| Groomsmen's buttonhole          | £12  |
| Wrist or brooch corsage         | £20  |

CEREMONY FLOWERS

# The aisle isn't a warm-up.

# Same family. Very different footprint.

£75 / £90

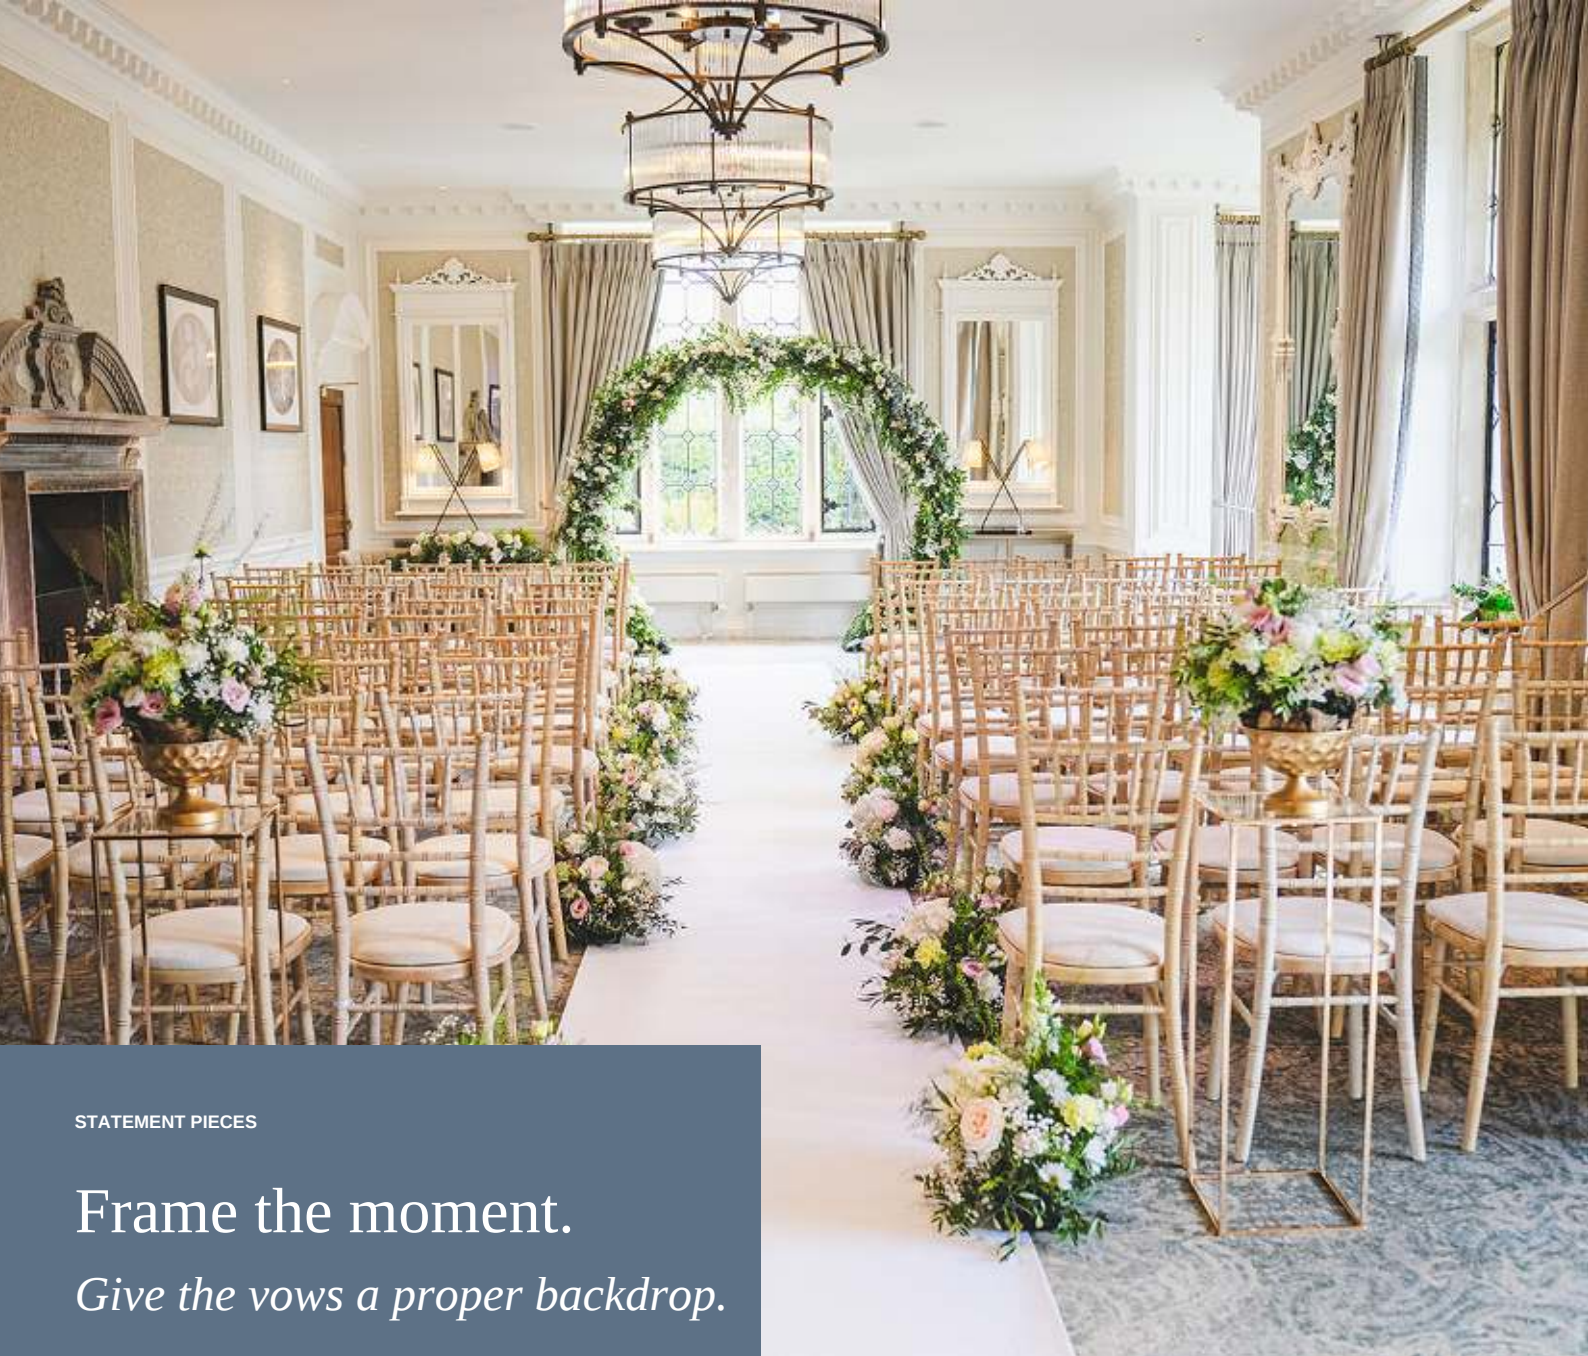

## MEDIUM MEADOW / £75

Our most-used size. It lines the aisle, then moves beautifully to a 5ft 6in or 6ft round table. On long tables, we make it longer and leaner.

## LARGE MEADOW / £90

A substantial statement. It can move to a 6ft round table, but not beside family-style food — there simply won't be enough table left.

*The clever bit? They line the aisle first, then become your centrepieces.*

#### STATEMENT PIECES

Frame the moment.  
*Give the vows a proper backdrop.*

#### FLOWER GATE / £350

Two handsome plinths or urns, each carrying a serious arrangement. A proper entrance, focal point or frame for the two of you.

#### PART-COVERED ARCH / £950

The structure still breathes, but the flowers have enough scale to make the moment matter.

#### FULL-COVERED ARCH / £1,300

Full floral coverage. No half measures. The one for a ceremony backdrop that owns the room.

Make the actual marrying look the part.

|                                |        |

RECEPTION FLOWERS

Give us the room.  
*We'll make it earn its invite.*

# Height. Shape. Scale. Then the flowers.

*The table still needs room for dinner.*

## TALL HARLOW + FLOWER BOMB / £100

A slim frame with a flower arrangement on top, equivalent in scale to a medium meadow. Height and impact, without building a wall across the table.

## SMALL / MEDIUM / LARGE

Small dresses a guest-book or cake table. Medium matches a medium meadow. Large is for rooms and tables that can take the scale. We'll tell you honestly when they can't.

#### RECEPTION FLOWERS

## Build the tables your way.

| Part dressed easel | £40  | Table name stand   | £1.50 each |
| Full dressed easel | £65  | Individual candle  | £5 each    |

One palette. Completely different energy.

# Designed once. Used brilliantly.
